Veteran Station Agent at Wells River. Looking into the records of the vetern railroad employees who will be early enchciaries if the B. & M. pension proect is carried to completion, an occasionremarkable record of long continuous service is found, says the Boston Globe. ne of these is the case of David Allison, in the company's employ 47 rears, and 45 years station agent at Wells River, Vt.

Born in Haverhill, N. H., in 1841, he ame to Newbury, Vt., in 1845. In boyod he did chores for Henry Keyes, for any years president of the Passumpsic droad, and in 1862 young Allison enand the employ of the company to care or the horses used in constructing the ad from Barton to Newport. Coming Wells River as station agent in June 864, he has continued in that position the Passumpsic railroad and its sucsors and connections at Wells River ntil the present time.

In 1864 the force comprised a man and boy; today it consists of 14 men. About 90,000 pieces of baggage and 000 bags and sacks of mail are hand per annum, while the number of ght cars loaded, unloaded and trans red at the local freight house will apximate 4700 yearly.

At the present time about 55 trains rive at, leave or pass this station daily. wo station buildings have been desved by fire during his service.

He has been too busy to join many sonization, the New England Fat Men's b, which frequently meets at Hale's vern in this town. in 1871 he married Emma Carpenter

d they have two daughters. Mr. Allison is the longest in continuous ervice of any agent on the Passumpsic ision, and so far as he knows, none on ic B. & M. system are so long in service, though a few may be older in years.

S. A. Douglas Centennial.

The Brandon people are discussing a proper observance of the centennial of the birth of Stephen A. Douglas who was born in that town in 1813. writer also calls attention to the fact that a certain Thomas Davenport, who was a blacksmith living in Brandon, Vt., was the first man in the world to construct a working model of an electric railway. His first one was built in 1834 and was exhibited in Springfield, Mass., the fall of 1835 and for two weeks in Boston in December of that year. He obtained a patent from the office in Washington. He took his invention to New York where he was offered \$250,-000 for it. He refused and went to Engand where he set it running. amous Michael Faraday was well pleased with it but it soon occurred to him at it did not possess much power. After stopping it easily with a broom he clused to invest or to recommend it to thers. So Davenport had to bear all expense and went back home disuraged and broke. A sad accident occurred at the home of Samuel Lemay, in Beecher Falls, at about 12 o'clock last week Monday, when Mrs. Lemay, who was getting dinner, poured kerosene from a can into the stove, which caused an explosion, enveloping her in a sheet of flame. She rushed down the stairs outside screaming and fell as she reached the ground. Several men who worked near by ran to her assistance. She was badly burned, her clothing being nearly consumed. Doctors Barbour and Holmes of West Stewartstown administered chloroform and dressed her wounds. She died Tuesday morning at 9.45 o'clock. Mrs. Lemay was 22 years of age and the mother of three small children.

Hunters are beginning to get interest ed in the subject of deer as the open season will run from October 25 to October 30, inclusive. This is the first year that does may be shot by hunters, so that the slaughter of deer is expected to be greater this year than ever. Deer are reported plentiful in this neighborhood, says the Montpelier Argus, and a drive of six to ten miles will bring a hunter into the deer country, so that former Montpelierites who like deer hunting ought to find plenty of the sport this year if they come oack. Many deer are reported even as close as Middlesex and Moretown.

Co. D beg to announce that they are planning to produce one of their famous minstrel entertainments early in November and have engaged Frank O. French to direct the same. This means a most enjoyable and up to date performance, introducing many decidedly novel features. Rehearsals will begin tonight at 7. 30. Watch for the date and further particulars.

The proceeds of this show will help to defray the expense of equipping the new armory and the event is certainly deserving of a large attendance. The minstrel show put on last winter by Mr. French was easily one of the grandest successes ever staged in town and the coming show, with the help of the townspeople is sure to make a noise like the real thing. While contemplating the coming performance it would be well to remember that it was largely through the efforts of Company D that the beautiful new armory building, now under construction, was made possible.

"1892" Pure Spun Aluminum **Kitchen Ware**

Is Better Than Agate or Enamel

Because it is sanitary and saves your money, time and health. The genuine spun aluminum ware, stamped with the Maltese Cross, will outlast any other cooking utensils and is guaranteed by the makers for twenty-five years.

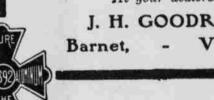

It is pure, wholesome and hygienic-no danger of metal poisoning-cannot chip into the food, because pure SPUN Aluminum expands with the heat and will not crack, scale or peel like the old style ware.

Enamel ware is iron coated with colored glass. Heat causes the glass to chip off into the food in minute particles, which, taken into the stomach, is apt to cause serious troubles, including cancer, according to some medical authorities.

"1892" Pure Spun Aluminum Ware is made from solid Aluminum throughout-no coating of glass-and expands uniformly under heat. It cannot crack, scale, peel like the out of date enameled utensils; it does away with all possible danger from this source.

You owe it to yourself, and to every member of the household, to give this new and better kitchen ware a practical test. If it fails to do what is claimed for it, you get your money back without a quibble or a cross word.
